

### Watershed High Growth Model

#### Investment Objective

The Watershed High Growth Model seeks to provide investors with capital growth over the medium to longer term (at least 5 years) through exposure to a diversified portfolio of assets.

The objective of the Watershed High Growth Model is to outperform the Financial Express Unit Trust Peer Group Multi Asset Aggressive Index after costs.

#### Investment Strategy

The Portfolio is an actively managed, diversified portfolio of securities across both growth assets such as Domestic and Global Shares, Property Trusts, Exchange Traded Funds and at times externally managed funds. The portfolio will generally hold approximately 90% in growth assets and 10% in more defensive assets, but the portfolio has deliberately broad target ranges allowing implementation of tactical asset allocation given macro-economic views and expected asset class and sector returns.

Key Portfolio Features	
<b>Inception</b>	July 2016
<b>Benchmark</b>	FE UT PG Multi Asset Aggressive Index
<b>Management Fee</b>	0.55% p.a (inc GST)
